Discuss the issues
for upliftment of
performance of the students**

Parent-Teacher Meet

Organized by : Department of Chemistry, EKAC
Coordinator : Dr. Himani Medhi, Assistant Prof., Department of Chemistry, EKAC
Chairperson : Dr. Anil Ch. Das, Principal, EKAC
Date : 30/03/2024
Venue : Room 4, EKAC
No. of students present: 3

Addressing the welcome note, Dr. Himani Medhi has introduced Principal and faculty of Chemistry Department, EKAC, to the parents and asked Principal to lead the meet as chairperson. Chairperson, Dr. Anil Ch. Das has conveyed words to parents about the study of the students and specifically the safety measures to be considered during the chemistry practical classes. Later, the faculties of the Department of Chemistry also have exchanged view points from the parents about the students' progress in their studies and conveyed various important safety measures that to be considered in the practical field of chemistry. The meeting has come to an end with the vote of thanks by Dr. Himani Medhi.

Field Study at
Departmental level
For the Experiential Learning
of the students

Report on Field Study

Date: 06/08/2023

Organizer: Department of Botany, Eastern Karbi Anglong College

Aim and Purpose: Field Study is an essential part of Botany. The natural environment where we all interact, the plants in their natural habitat is one of the most interesting things that is needed to be studied by the students of Botany. Studying plants in their natural habitat enhances our knowledge that is learnt from the classroom discussion and laboratory experiments.

Department of Botany, Eastern Karbi Anglong College conducted a field study programme with the Generic and DSC students of B.Sc., 3rd Semester students and NEP-FYUG 1st sem to study the habitat and collection of herbaria from the BSI, Shillong Meghalaya. Dimbeswar Das, Assistant professor of Botany along with Dr. Jayashree Boruah led the team.

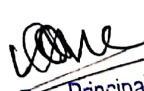

Duration of the trip: 3 days (5th, 6th, 7th October-2023)

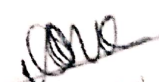

Total number of students attended: 17

Name of Students:

- 1) Bijoy Singh
- 2) Anshu Singh
- 3) Sakib Ahmed
- 4) Abishek Debnath
- 5) Farhana Yesmin
- 6) Christina Terongpi

Field Trip Report to Dikrutl Waterfall

Date: 29th June 2024

Destination: Dikrutl Waterfall

Participants: 14 Students and Faculty

On 29th June 2024, a group of 15 students embarked on an educational field trip to the Dikrutl Waterfall to study the region's rich biodiversity. The primary objective of the trip was to observe and collect species found in and around the waterfall area, enriching the students' understanding of the ecological diversity of the region.

Journey Details

The journey commenced at 7:00 a.m. from Sarihajan. The group stopped midway at Bakalia (Volongkom - aji) for breakfast, providing a brief respite before continuing the journey. The team reached the destination at 11:00 a.m., greeted by the serene and vibrant surroundings of the waterfall.

Activities at the Waterfall

Upon arrival, the students explored the area under guided supervision, searching for various species. The following organisms were identified and collected during the study:

Arachnids: Spiders

Mollusks: Snails

Aquatic Life: Fish, crabs

Insects: Ants, butterfly and other insect species

The students documented their findings, noting the unique characteristics and habitats of the organisms observed. The field trip was an engaging learning experience, offering insights into the interdependence of aquatic and terrestrial species within the ecosystem.

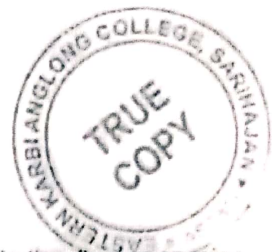

Return Journey

After completing their activities, the group departed from Dikrutl Waterfall and reached Sarihajan by 8:30 p.m., concluding a fulfilling and educational day.

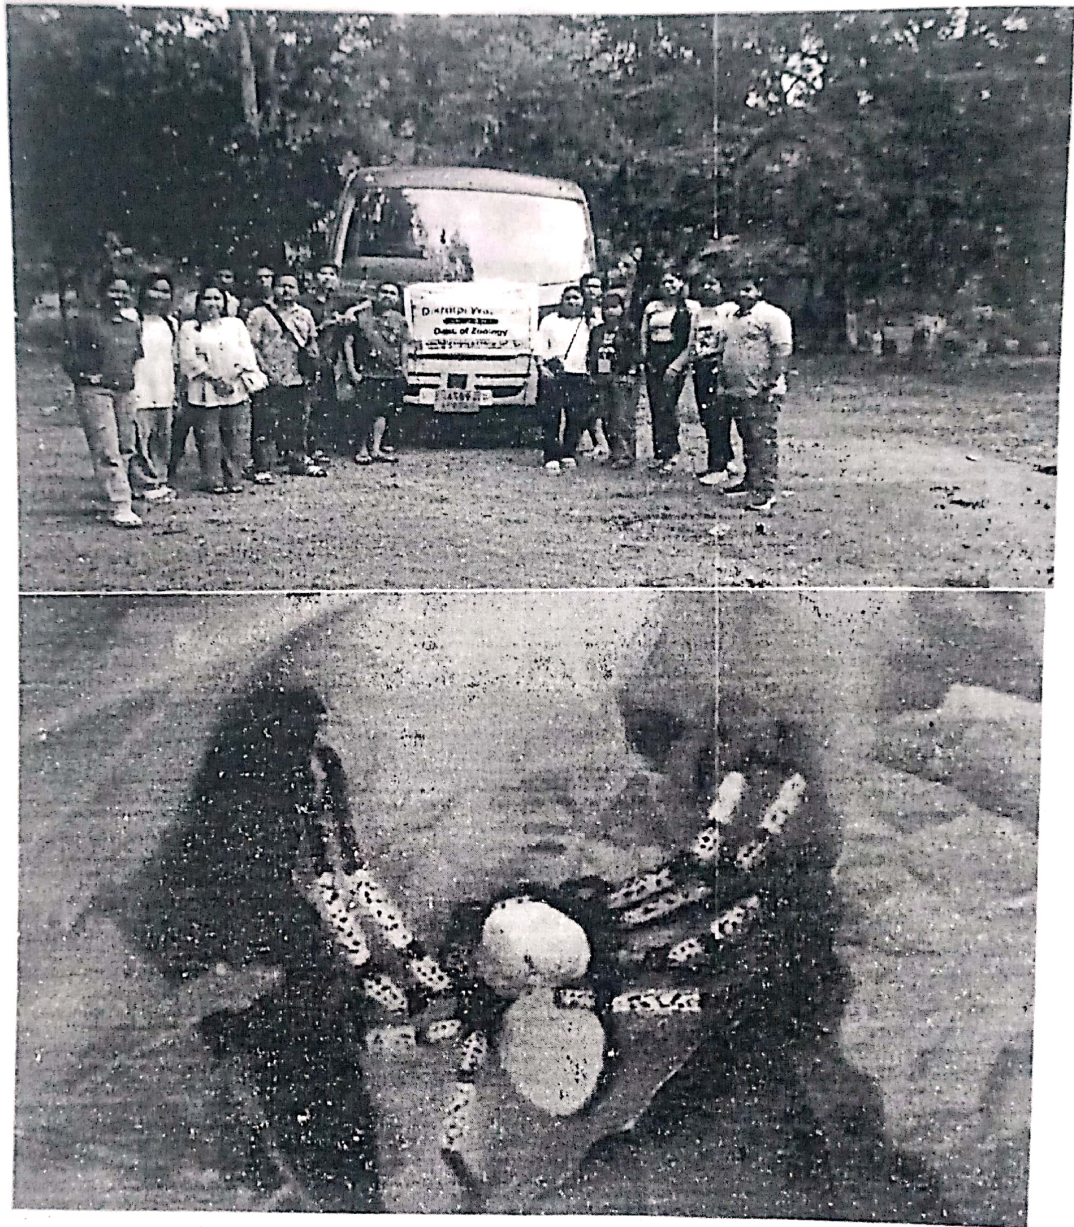

Conclusion

Dr. Anil Ch. Das, Principal
Eastern Karbi Anglong College
Sarihajan, Karbi Anglong

Dr. Anil Ch. Das, Principal
Eastern Karbi Anglong College
Sarihajan, Karbi Anglong

The field trip successfully achieved its objective of introducing students to the diverse species inhabiting the Dikrutpi Waterfall area. It provided hands-on experience in ecological studies and reinforced the importance of biodiversity conservation. The students expressed enthusiasm and a deeper appreciation for nature following this insightful experience

INDUCTION PROGRAMME

Induction Programme for Newly Admitted Students (HS 1st Year and Degree 1st Semester)

Organized by : Academic Cell in collaboration with IQAC, EKAC
Coordinator : Dr. Himani Medhi, HOD, Assistant Prof., Department of Chemistry, EKAC
Chairperson : Dr. Nayan Moni Medhi, Assistant Prof., Department of Assamese, EKAC
Resource person : 1. Dr. Mousumi Gogoi, Assistant Prof., Department of Economics, EKAC
2. Susitra Shyam, Assistant Prof., Department of Education, EKAC
3. Madhurekha Saikia, Librarian, EKAC
Date : 14/08/2023
Venue : Hall 1, EKAC
No. of students : 168

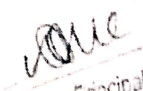

An induction programme for Newly Admitted Students (HS 1st Year and Degree 1st Semester) of the college has been organized by Academic Cell in collaboration with IQAC, Eastern Karbi Anglong College. Dr. Himani Medhi addressed the welcome note and purpose of the programme to the gathering and handed over the agenda of the meeting to the chairperson. Dr. Nayan Moni Medhi has introduced the resource persons to the gathering and asked to deliver their lecture.

Ms. Susitra Shyam has delivered her lecture on the rules and regulations to be followed inside the college campus along with the facilities available in the campus while Ms. Madhurekha Saikia enlightens about the library facilities available for students and about the monitoring of students for the best reader and the best e-resource user award within a particular academic session. Lastly, Dr. Mousumi Gogoi has enlightened about the course structure of FYUGP of NEP-2020 under Assam University and account bank credit system.

Finally, chairperson, Dr. Nayan Moni Medhi has addressed the remarks of the event conveyed by the resource persons.

Vote of Thanks : Dr. Himani Medhi, HOD, Assistant Prof., Department of Chemistry, EKAC

Remedial Classes Taken
at Departmental level
for slow learners

Report on Remedial Classes Conducted by the Department of Education (Season 2023-24)

Introduction The Department of Education has always been committed to ensuring the academic success of all students. To address the challenges faced by students in understanding fundamental concepts and preparing effectively for examinations, the department initiated a series of remedial classes during the academic session 2023-24. These classes aimed to provide additional support to students and enhance their confidence by revisiting core topics and engaging in focused learning.

Objectives of the Remedial Classes

1. To strengthen students' understanding of basic concepts across various subjects.
2. To provide a platform for solving and discussing previous years' question papers.
3. To bridge the gap between the regular curriculum and individual learning needs.
4. To help students prepare effectively for upcoming examinations.

Planning and Implementation The remedial classes commenced after the completion of the regular syllabus. This timing allowed students to identify their weak areas and actively participate in additional learning sessions. Key highlights of the planning and implementation include:

1. Faculty Involvement:

- Faculties from various disciplines collaborated to identify topics that required reinforcement.
- A schedule was developed to ensure that remedial classes did not conflict with students' regular academic activities.
- Faculty members adopted a student-centric approach, tailoring their teaching strategies to address common challenges.

2. Curriculum and Activities:

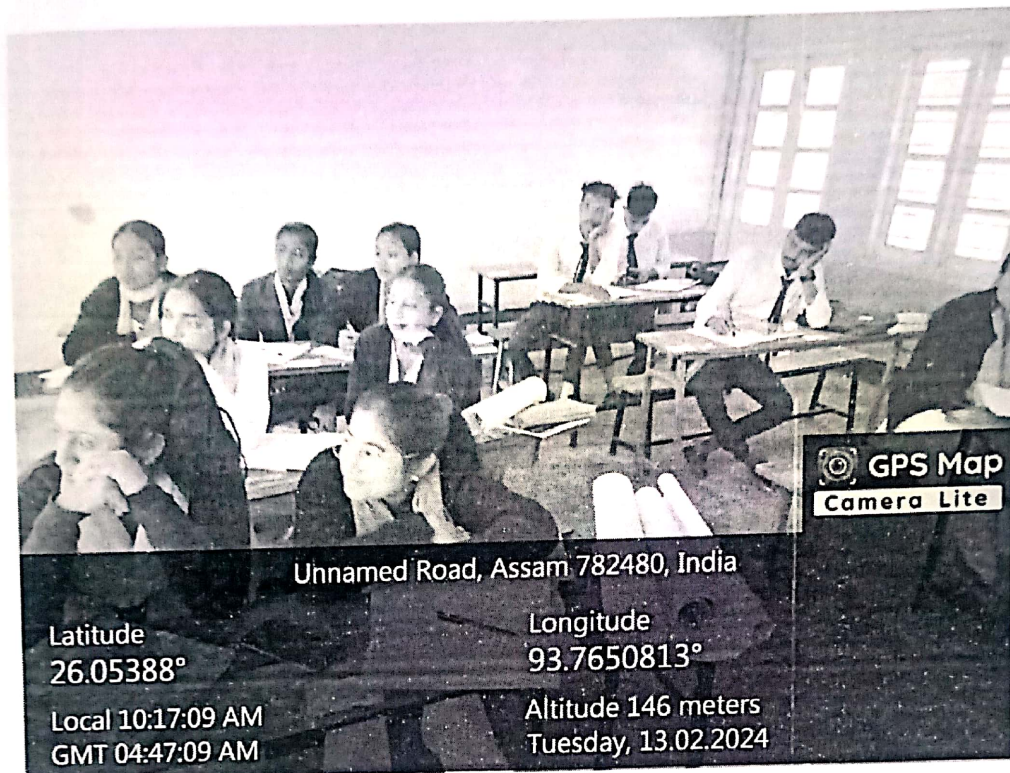

- Core concepts from each subject were revisited in detail to strengthen the foundational knowledge of students.
- Previous years' question papers were discussed thoroughly, with solutions provided for each question. This helped students understand the examination pattern, marking scheme, and key topics.
- Doubt-clearing sessions were held regularly, allowing students to seek clarification on complex topics.

3. Frequency and Duration:

- The remedial classes were conducted regularly throughout the academic season.
- Each session lasted 1-2 hours, depending on the subject and the complexity of the topics being covered.
- Weekend sessions were also organized for students who needed additional assistance.

Arrangement of Group Discussions For Development of Better Understanding through Discussion

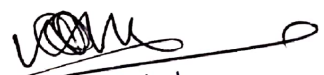

Group discussion reports of Education Department 2023-24

The group discussion was organized to address the common challenges students face when it comes to public speaking and how to motivate and support them in developing these essential skills. Public speaking is an important life skill that helps students gain confidence, enhance their communication abilities, and succeed in both academic and professional settings. The conversation aimed to identify barriers to effective public speaking and explore strategies for encouraging students to practice and improve their speaking abilities during the 2023-2024 academic year.
