## Feedback Analysis Report

Date: 20/11/21

Feedback on course/curriculum has been collected from four stakeholders Students, Teachers, Alumni and Employers via Google form for the session: 2020-2021. On 20<sup>th</sup> November, 2021, IQAC has analyzed the feedbacks collected from each stakeholder and discussed some important collected suggestions about the enhancement of the curriculum and noted it out accordingly. The noted discussions have been reported to the Principal of the College for necessary measures to be initiated by the Principal.

The discussed points are mentioned below:

1. As suggested by one of our faculties regarding improvement of the curriculum, IQAC requested the Principal to take necessary steps to motivate students to attend classes regularly so that the course could be completed in time.
2. As per one of our faculty members, the present English core course of CBCS system is more literature centric. It is needed to develop linguistic competence in the learners by including the linguistic items like “History of the English Language”, “Structure of Modern English” and “Phonemic Transcription” into the course curriculum. The IQAC has put forwarded this suggestion to the Principal and asked him to send this suggestion to the Director, CDC, Assam University, Silchar, for kind information and necessary action.
3. IQAC requested the Principal to take steps for analyzing the current course/syllabus and to ask the faculty members to provide suggestions if they really feel to modify or change any topic/unit of their respective curriculum of the concerned department.

**APPROVED**

  
22/11/21  
**Dr. Anil CH. Das, Principal**  
Eastern Karbi Anglong College  
Sarihajan, Karbi Anglong

Continued...

4. IQAC requested the Principal to inform the university authority that it has become necessary to compile and publish selected text books for the benefit of the students.
5. IQAC requested the Principal to take steps for field based activity in each semester in connection with the respective curriculum.
6. IQAC requested the Principal to inform the university authority for incorporation of some more skill based programmes/paper in the curriculum for the benefit of the students.
7. IQAC requested the Principal for giving thrust on games and sports through Career Counselling Cell so that selected and interested students feel motivated to make games/sports as career.

## Teachers' Feedback Analysis

17. Suggestions regarding the improvement of the course/ curriculum. (If any)

Responses: 24

Topics related to current economic issues should be added more to make the students aware about it and to modify the course more practical-oriented.

Students should be motivated to attend college regularly so that the course can be completed in time.

More topics related to problems and issues of our practical life should be included in the curriculum.

No

A Suggestion regarding the improvement of the course/curriculum is to be Concentrate on the professional education for each student and all educational stages.

The present CBCS English (honours) course is more literature-centric. The course should include "History of the English Language" as well as "Structure of Modern English" to develop linguistic competence in the learners. Linguistic items like "phonemic transcription" could be crucial to improving speaking as well as pronunciation skills of the learners.

Some parts of the curriculum need to modify.

NA.

Give more importance on research.

Regarding curriculum some chapters/topics are not change for a long time. It is better for us/students to change a little bit of syllabus.

It should be skill - oriented and it should be based on practical aspects.

AUS may publish the selected texts of different writers with editorials for the benefit of the student which had been initiated earlier in TDC(non cbcs) days

Field based activity should be increased in the curriculum

Moral and ethical values should be included

Some skill based paper should be introduced

More skill component may be added to enhance the employability of the students in research and applied sector

It's no doubt that present curriculum caters the need of the students as well as teachers but if possible try to do some improvement in our major courses.

22/11/21  
Dr. Anil Ch. Das, Principal  
Eastern Karbi Anglong College  
Sarihajan, Karbi Anglong

## Teachers' Feedback Analysis

I personally feel that study on language (Linguistics) should be introduced at the under graduate level so that they get an exposure on linguistics too apart from literature. It can open up scope for students who have an interest in linguistics.

Try to change some topics in syllabus

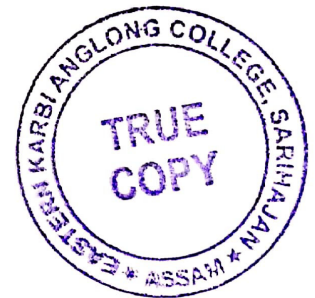

NA

Satisfactory

Develop plans, methods and processes

More skilled aspect may be incorporated

Games and Sports should be taken up to the national level.

## 15. Suggestions (If any)

Total responses: 5

The course should emphasize on skill enhancement,co-curricular activities. It should be job oriented.  
Curriculum should relate  
with practical life.Inclusion of or use of ICT in course should give priority.

Today the world is bealive in practical

being an ex student i just want to highlight that every little details were fair enough regarding the college but  
as we know time to time everything should be upgraded to expand our knowledge then how can our  
educational institutions are lacking behind it...so constant modernization is must.

Thank to each of EKAC prof

Thank you to all the prof of ekac for such ideals and guidance...spcial
